Negro Exodus.

A movement is said to be on foot in the South for another negro exodus, and if it is carried out upon the scale announced it will leave some of the Southern States with a serious labor problem to grapple with. When the Vicksburg convention was held last year, to consider the exodus movement, the negroes were strongly in favor of keeping it up, but acting upon advice, they temporarily gave up the project, but did not relinquish the idea of starting another exodus should circumstances render it to their advantage.

From information now made public, it seems that organizations have been made among the colored people throughout the South, having for their object the removal to other parts of the country. No man is allowed to become a member unless he has some money and no idle or shiftless person can join. It is said that no less than one hundred thousand persons belong to these organizations, and every one of them will leave the South at a moment's warning. The exodus is to become a business project. Some 700,000 acres of land have already been purchased in New Mexico by a company formed for the purpose, and it is the intention to colonize the discontented negroes there. More land is to be purchased as soon as needed. There is little doubt that the blacks will take to this movement more generally than they did to the Kansas exodus last year.

Garfield's Inauguration.

Active preparations are thus early being made for the inauguration of President Garfield, and it is said that it will be on a scale surpassing that of any previous inauguration. Civil and military organizations from various parts of the country have been invited to be present and take part in the ceremonies, and many of them have accepted. Among the military organizations expected are several regiments from New York, Pennsylvania, New Jersey and other States.

The committee of arrangements propose to ask Congress for the loan of 1,000 hospital tents which will make quarters for 10,000 men. The Garfield and Arthur club of the 5th ward of Baltimore, which claims to be the first organization of the kind in the country, has voted to attend, and various other campaign clubs from a greater distance are discussing the advisability of being in Washington on inauguration day.

Wheat Yield.

The final reports of the wheat crop of the United States for the present year, as published by Bradstreet's paper, shows that the total production of the entire wheat growing regions is four hundred and fifty-five millions, six hundred and forty-nine thousand bushels. Of this vast amount the Western States, exclusive of the Pacific coast, produced 323,675,000. New England is credited with only 1,100,000 bushels. We are led, says Bradstreet's, to place the needs of the country for food, seeds, &c., at 255,000,000 bushels leaving 190,724,000 for export, to supply the demands of foreign countries. The total surplus production in all the other wheat producing countries of the world, beyond the needs of home consumption, is only 63,750,000, while the deficiencies amount to 227,500,000 bushels, England alone being short 120,000,000 bushels.

The Secretary of State day before yesterday received a telegram from the Commissioner at Peking, under date of the 17th inst., that on that day two treaties were signed, one of commerce and the other concerning immigration. Mr. Truett was to leave Peking on the 20th and bring home the treaties by the first steamer. By a previous telegram Everts had been informed that the immigration of Chinese laborers by our own legislation. Details of the commercial treaty are not yet known.

The New York World says of the new Chinese treaty: "What sort of a treaty it is we shall know better soon than we do now, and we will hope for the best; but there is something rather suspicious in the facility with which the Chinese government seems to have concurred to us the right to restrict the coming of Chinese subjects into the United States. It is not likely that this can have been granted without an eye to eventual if not to immediate reciprocity."

Thanksgiving was generally observed in the usual manner in San Francisco. Besides church services, there were a number of large social gatherings, balls, etc., including a grand masquerade at the Pavilion. San Francisco and Oakland bicycle clubs held a meeting and races at the half-mile track.

OUR WASHINGTON LETTER.

WASHINGTON, D. C., Nov. 18, 1890.

There are ominous threatenings coming from the upright, pure and honest Democracy that the Republican majority in the next Congress will be ignored, and the organization given to the minority. Senator Butler of South Carolina sounds the key note of the method by which it may be done. He says: "I am not sure the Radicals will have a majority. I think we shall retain the Senate by a small majority, and the Radical clerks of the Lower House, have set us some valuable lessons in the preparation of the lists of members preparatory to an organization of the House."

And it is by no means certain we shall lose it. This construed into good Democratic English means, that true to its past record, the minority in the next Congress, will, through its serviceable tool, Clerk Adams, make a last dying attempt to retain control of the power in the Legislative branch, which it can not but see has gone from them. The clerks of the House under the present law, has the power to make up the roll of the 47th Congress, and also upon him devolves the duty of calling it to order. The reputation of Mr. Clerk Adams for honesty and fair dealing is none of the best, and if he can save the House to his party, he may expect his reward, in a re-election to his fat office for another two years. But the Republicans are too strong to stand quietly and permit

SUCH A WRONG.

They have a clear working majority, and notwithstanding the tricks and stratagems of Mr. Adams, and the foolish talk of Senator Butler, the Republican members will organize the next House and retain the control of it. Senator Butler obtained his seat in the United States Senate by such doubtful and questionable means, that the suggestion of a conspiracy to obtain control of the House and deprive a majority of its rights comes with exceeding bad grace from him. The coming session, the last of the forty-sixth is at hand. What the Democracy will do to signalize their retirement, is the subject of much discussion. The question is asked, will they pass all the appropriation bills, notably, the one for payment of the Deputy New York Marshals, or will they still adhere to their

BLIND FANATICISM

And make an extra session necessary; one of the impelling reasons for avoiding an extra session is, that it would involve an entire change in the officers and employees of the House. The Senate will be called together soon after the 4th of March as is usual for the purpose of confirming the new Cabinet; whether the House shall also be called together, depends entirely upon the action of the majority in passing the necessary and legal appropriation bills. I think the House will be discreet enough, not to force an extra session. They can gain nothing, they may lose much. When they shall have made their last speeches, recorded their last votes, drawn their final pay, and go sorrowfully down the marble steps that shall know them no more for ever, the people will draw a long breath, and give thanks that a new dispensation is at hand, that the councils of the nation shall be controlled by those who sought to save, not those who would have destroyed it.

LOGAN.

WHY NOT NOW?

The office of Superintendent of Public Schools is an expensive ornament. Let the Legislature abolish it, and in 1892 no such office will be voted for.—Enterprise.

The duties of State and county school superintendents could be attended to for a very small amount of money by other officers. For instance, the Secretary of State or Controller could just as well as not do the State Superintendent's business, and the County Clerk or Auditor in each county the same for a small additional salary. This thing of the State School Superintendent visiting each public school in the State once a year, at a considerable cost to the State, is all bosh. It is worse than nonsense, as it results in no earthly benefit to the schools. If the Legislature had the right to abolish the office of State Mineralogist, why not the offices indicated?—Austin Reveille.

Why not abolish the office at the coming session? The counties could thus be saved \$20,000 in the next two years.

BEHIND THE TIMES.—The Reno Journal, in a short biographical sketch of Congressman Daggett, says: "He was a Whig in 1861." If this was true, Mr. Daggett was evidently many years behind the times, as the last expiring gasp of the Whig party was given in 1854.—[Tuscarora Times-Renew.]

Daggett was also somewhat behind in the late election, if the votes tell a true tale.

Mrs. Lucy Noyes was cremated quietly at Dr. Leary's crematory in Pittsburgh on Thursday.

The New York journals announce that the Passion Play will be withdrawn.

The official vote of Oregon gives Garfield 30,618, Hancock 19,950, Weaver 245.

LONDON LETTER.

Interesting to Farmers—European Crop Reports and Grain Markets.

[Regular Correspondence.]

LONDON, Eng. Nov. 9, 1890.

The heavy rains of the past week have once more hindered wheat sowing on retentive clays, while floods in some districts have done great mischief, but on well drained soils good progress has already been made. Thrashing operations for the past fortnight have been on a much smaller scale than they would have been had the weather been fine, and the percentage of samples out of condition had been increased. All inferior qualities are, if anything, more difficult to sell, at prices which are by no means remunerative to the grower. Quotations are nominally unaltered, but both values and quantities cover rather a wide range. The arrival of English wheats during the week have been considerably smaller than those of last week, the figures being 3,369 grs., as against 4,731 grs., and the entire importation of breadstuffs into London also shows an important decline; nevertheless, the trade is certainly weaker and prices are maintained solely by the comparative smallness of the present extraneous supply, stocks being barely sufficient to meet current needs. Still there is no anxiety on the part of millers, who look confidently for lower rates. Of English flour 21,413 sacks only have come to hand during the week, and the best qualities have sold readily at Monday's rates; for inferior makes the trade has been slow at unaltered values.

The trade in foreign grain during the week has not shown great activity and has been entirely devoid of speculation. There have been but few cargoes of wheat off coast, and only one at port of call; but there is an increase in the quantity afloat, and of 1,400,000 grs. in the American visible supply, and arrivals have been prevented by the rough weather. Buyers, therefore, operate slowly and with great caution. Off stands the trade has been slow during the week, with restricted inquiry for all descriptions of foreign wheats except Australian white, which sold more readily.

The cargo trade has been quiet throughout and values have declined since Monday.

Navigation at most Russian ports being nearly at an end for the season, and deliveries being small rates have realized an advance.

In France in the provincial markets the supply of home-grown wheats has been rather more plentiful during the week, and at Paris on Wednesday millers tried to obtain 50 centimes reduction, but in few cases were successful.

In Germany (Hamburg), the market for wheat has been quiet without any material alteration in value. Millers buy slowly for present needs only. Best qualities of barley have met a better enquiry.

In Holland (Groningen) the weather has been unsettled and supplies have been on a moderate scale, nevertheless to effect sales a reduction of 24c per qr. of wheat had to be submitted to on Wednesday. Rye also was lower in price. Barley unaltered. Oats in good demand for exportation.

In Russia, according to a telegram to the Standard dated Oct. 26th, the reports as to the deficiency of the harvest have been exaggerated, but actual want prevails in Samara, Saratoff, and the other districts north of the Sea of Azoff.

The Salary Bill.

It is suggested by the Reveille that "it would be a good idea for delegations to the Legislature, from each county in the State, to get together between now and January and carefully consider the Salary bill, so far as concerns their respective counties. There may be changes needed. If there are, members will go to Carson prepared to ask for what changes they may deem necessary." Commenting upon this the Elko Independent says:

It is undoubtedly true that many gross salaries are to be found in the present Salary law, but it is doubtful whether any reform should be attempted by the Legislature next Winter. The system of salaried officers is new in Nevada, though an old one in most of the States. It is an undoubted improvement upon the old fee system so far as most of the county officers are concerned, although it may not prove effective in all. Having started in to give the Salary plan a trial, we are of the opinion that we should give it a fair test, and leave the present law alone until it has been tried for at least one term. We will know better how it works two years from now and just what remedies should be applied, if any are required. As for the officers to be inaugurated on the first Monday of January next, they were elected with the distinct understanding that their compensation was fixed for their terms, and of course, no attempt should be made to effect them. Any present change of the statute effecting officers to be chosen in 1892, or thereafter, should be deferred until we can form a more accurate idea of the workings of the law, and the proper adjustment to be made under it.

Meets the requirements of the rational medical philosophy which at present prevails. It is a series of pure vegetable remedies, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

Thanksgiving Ball.

Considering the dull times and the cold weather the Thanksgiving ball at the Pavilion was well attended. About fifty couples presented their tickets and gained admission. The hall was well lit up and the music first-class. The supper was splendid and charmingly served by a bevy of lovely young ladies. Altogether, Mrs. J. Wilson and the lady managers were very successful in their endeavor to make the perfect order and good feeling that prevailed. If they did not take in hundreds of dollars they at least contributed to the pleasure of their patrons. The business of the fair was continued during the evening and many useful articles changed off, among them a sofa cushion, which was won by Master James Kelly. To-night will be the last of the fair.

There will be dancing as usual after the entertainment.

The Gas.

Yesterday was the day fixed upon by the dissatisfied gas consumers to quit, but none of them did so, the Gas Co. having furnished better gas since the complaint was made, and represent that they will do better in the future or shut down the works. Mr. Leete says that they have been prevented from making a really No. 1 article, because of delay in the arrival of the steamer from Australia, upon which was a lot of material. Meantime he has been manufacturing from a new process, and while the experiments are being made, he hopes for the indulgence of the consumers.

School Money.

County Supt. Dawson has made the following apportionment of school moneys:

No.	Name.	Children.	Amount

Savings Bank Affairs.

Sheriff Walker yesterday informed us that Deputy Boyd was making as rapid progress as possible in the settlement of Savings Bank matters. Several attaching creditors have been paid in full, while others have been partially paid. The collections, so far, have been small, but as fast as any money is received, it is applied on the judgments.

All the Belmont freight will hereafter go over the Nevada Central Railway.

NEWS OF THE MORNING.

After meeting his family at Paris John Mackay will travel through Europe and then make a trip up the Nile with his family and brother-in-law, Count Telfener.

It is said the Union Pacific Railway Company recognize the tendency towards lower passenger fares, and the rate from Omaha to Ogden, a distance of 1,033 miles, has been reduced from \$77 to \$62, or from 7 1/2 cents per mile to 6 cents per mile.

The Controller of the Currency urges the repeal of the laws taxing the capital and deposits of National Banks, and also the two-cent stamp-tax on checks. He says the Internal Revenue collections this year, except \$11,000,000, are from whiskey, tobacco and beer. Remove these taxes on banks, and the tax on liquors, tobacco and beer would meet all expenses and reduce the debt 100,000,000 annually.

The overland was nearly four hours behind time last night.

Irvin Ayres and family departed for Oakland yesterday morning.

The editor of the JOURNAL has not lost any Chairmanship of the Senate Judiciary Committee. Better place him at the head of the Committee on Public Morals.

For points in stocks, go to Sol Levy; he can oblige you all with stock-ings, at from 10c per pair and upwards.

Buy your dress goods of Sol Levy, the reliable.

Sol Levy is not closing out, and yet he sells all his dry goods for less than any other store in this town or State, without any exception.

INSURANCE AGENCY.—I am prepared to insure all kinds of property at reasonable rates in either foreign or American insurance companies. I am agent for twenty-four companies having a combined capital of forty-three million, five hundred thousand dollars. I represent the Pacific Coast Agencies, Hutchinson & Mann, Jacobs & Easton and H. W. Snow. All persons desiring insurance in first-class companies can obtain it by applying to me. Policies written on the day of application.

nov6 Wm. N. Knox.

Wm. Goeggel is classed amongst the most skillful watchmakers on the Pacific Coast.

Buy your merino and muslin underwear of Sol Levy; he sells them the cheapest.

JOB PRINTING.—This office has every facility for doing all kinds of job printing. And inasmuch as all home industries should have the preference over all others, we should be pleased to receive orders at any time for that class of work.

NICHOLS' INFALLIBLE INJECTION.—Guaranteed to cure promptly and permanently every case of Gonorrhea, Gleet and Whites, no matter of how long standing, if directions are followed. Internal medicine not recommended or necessary. A cure guaranteed or money refunded. Directions given in English, Spanish, French and German. For sale by Puninger & Queen, druggists, west side of Virginia street.

Buy your silks and satins of Sol Levy; he has the largest variety at bottom prices.

Flannels, muslins, table linens, etc., are sold for less at Sol Levy's than they could be imported for.

CONSUM.—"Brown's Bronchial Troches" are used with advantage to alleviate CROUPS, SOARS, THROAT, HOARSENESS and BRONCHIAL AFFECTIONS. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but, having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

THE THROAT.—"Brown's Bronchial Troches" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring a healthy tone without harshness, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. Speakers and Singers find the Troches useful.

A COUGH, COLD, CATARRH or SORE THROAT require immediate attention, as neglect often times results in some incurable Lung Disease. "Brown's Bronchial Troches" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "Brown's Bronchial Troches" are sold only in boxes.

Go to Bechtel's for lunch to-day. The usual pork and beans, besides other delicacies.

Have you seen those handsome new snittings at Sol Levy's?

For first-class Havana cigars, two for 25 cents, call at John F. Myers' drug store, two doors west of the Postoffice.

The cheapest place in Reno for drugs, medicines, and patent medicines, is at Myers' drug store, two doors west of the Postoffice.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Every body is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of the State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.
